

## Appendix I

### **Bank SinoPac, acting through its Hong Kong Branch (Incorporated in Taiwan with limited liability)**

#### **2025 Annual Report on Bank SinoPac, acting through its Hong Kong Branch's Sustainable Deposit 2023 (for the period from 13 May 2024 to 12 May 2025)**

Bank SinoPac, acting through its Hong Kong Branch ("SinoPac") (Incorporated in Taiwan with limited liability) issued the Sustainable Deposit 2023 under the established Sustainable Deposit Framework. Sustainable deposit refers to deposit of which the use of proceeds is to finance and/or refinance eligible sustainability-related loans, including green loans and sustainability-linked loans, so as to continuously promote SinoPac's corporate social responsibility strategy and contribute to economic, social and environmental sustainability.

SinoPac issued its Sustainable Deposit 2023 in accordance with the Sustainability Bond Guidelines 2021 published by the International Capital Market Association (the "ICMA"), and with reference to the Green Loan Principles 2025 for the underlying green loans and the Sustainability-Linked Loan Principles 2025 for the underlying sustainability-linked loans published by the Loan Market Association, Asia Pacific Loan Market Association and Loan Syndications and Trading Association.

#### **Use of Proceeds**

The net proceeds in SinoPac's Sustainable Deposit 2023 will be used for the financing and/or refinancing of eligible sustainability-related loans that meet the international standards as specified below. Eligible sustainability-related loans include green loans and sustainability-linked loans.

<b>Sustainability-related Loans</b>	<b>Eligible Category Criteria Applied</b>	<b>Eligible Categories</b>
A - Green Loan	Green Loan Principles 2025	<ul style="list-style-type: none"> <li>• Renewable energy</li> <li>• Energy efficiency</li> <li>• Pollution prevention and control</li> <li>• Environmentally sustainable management of living natural resources and land use</li> <li>• Terrestrial and aquatic biodiversity restoration, conservation and enhancement</li> <li>• Clean transportation</li> </ul>

Sustainability-related Loans	Eligible Category Criteria Applied	Eligible Categories
		<ul style="list-style-type: none"> <li>• Green technologies</li> <li>• Sustainable water and wastewater management</li> <li>• Climate change resilience and adaptation</li> <li>• Circular economy adapted products, production technologies, processes and business models</li> <li>• Green buildings</li> </ul>
B - Sustainability-linked Loan	Sustainability-Linked Loan Principles 2025	/

## Process for Evaluation and Selection

Referring to Eligible Categories Criteria Applied of sustainability-related loans as defined in the above “Use of Proceeds” section, sustainability-related loans that have passed the initial screening shall be further evaluated and selected by SinoPac in accordance with the requirements stated in Section A and Section B below. SinoPac has established a list of eligible categories, with an approximated total loan balance of USD 324.77 million as of 12 May 2025. The eligible categories may evolve over time. The following is detailed information of the eligible categories.

Sustainability-related Loans	Eligible Category Criteria Applied	Total Loan Balance (USD Million)	Proportion
A - Green Loan	Green Loan Principles 2025	88.21	27.16%
B – Sustainability-linked Loan	Sustainability-Linked Loan Principles 2025	236.56	72.84%
<b>Total</b>	<b>/</b>	<b>324.77</b>	<b>100.00%</b>

SinoPac shall review the eligible categories, and on a timely basis, make replacement as necessary to ensure the proceeds are allocated to eligible categories.

## Section A) Green Loan

Green loans are a type of loan instruments to finance and re-finance, in whole or in part, new and/or existing eligible green projects. Green loans financed and re-financed under SinoPac's Sustainable Deposit 2023 will comply with the four core elements regarding Use of Proceeds, Process for Evaluation and Selection, Management of Proceeds, and Reporting of the Green Loan Principles, published by the Loan Market Association, Asia Pacific Loan Market Association and Loan Syndications and Trading Association.

SinoPac selected 4 eligible green projects, with an approximate total loan balance of USD 88.21 million as of 12 May 2025. The eligible green projects covered the theme of green buildings only. Information of the eligible green projects is as follows:

Eligible Categories - Green Project Theme	Total Loan Balance (USD Million)	Proportion
Green buildings	88.21	100%
<b>Total</b>	<b>88.21</b>	<b>100%</b>

### Section B) Sustainability-linked Loans

Sustainability-linked loans are a type of loan instruments to promote and encourage companies to contribute to sustainable development. The use of proceeds in relation to a sustainability-linked loan is not a determinant in financing and re-financing eligible green and social projects. The borrower’s sustainability performance is measured by applying predefined sustainability performance targets (“SPTs”) to predefined key performance indicators (“KPIs”), and based on the loan and/or structural characteristics of sustainability-linked loans. Sustainability-linked loans under SinoPac’s Sustainable Deposit 2023 will comply with the five core elements regarding the Selection of KPIs, Calibration of SPTs, Loan Characteristics, Reporting and Verification of the Sustainability-Linked Loan Principles, published by the Loan Market Association, Asia Pacific Loan Market Association and Loan Syndications and Trading Association.

SinoPac selected 10 eligible sustainability-linked loans, with an approximate total loan balance of USD 236.56 million as of 12 May 2025. The eligible sustainability-linked projects covered the themes of palm oil manufacturing, gas and energy, jewellery manufacturing, property development, short-term accommodation, paper manufacturing, designer and manufacturer of lingerie, real estate management, and other financial services.

Industry Categories of Sustainability-linked Loan Issuer	Total Loan Balance <sup>1</sup> (USD Million)	Proportion <sup>2</sup>
Paper Manufacturing	74.90	31.66%
Palm Oil Manufacturing	36.47	15.42%
Designer and Manufacturer of Lingerie	33.77	14.28%
Short-term Accommodation	19.24	8.13%
Yarn Manufacturing	19.24	8.13%
Other Financial Services	16.82	7.11%
Electric Power Distribution	10.89	4.60%
Development of Data Centre	9.46	4.00%
Property Development	8.70	3.68%
Jewellery Manufacturing	7.07	2.99%

<sup>1</sup> Please note that the total loan balance for the green projects is 236.55. However, rounding up individual amounts may result in a total of 236.56, reflecting presentation rounding.

<sup>2</sup> The cumulative effect of rounding can result in a slight discrepancy from 100% due to rounding in each project.

Industry Categories of Sustainability-linked Loan Issuer	Total Loan Balance <sup>1</sup> (USD Million)	Proportion <sup>2</sup>
Total	236.56	100%

## Management of Proceeds

SinoPac shall regularly review the drawdown and repayment of eligible sustainability-related loans. In order to ensure that the total loan balance does not exceed the total amount of eligible sustainability-related loans, SinoPac has established a control ratio, whereby the amount of Sustainable Deposit taken up shall not exceed 80% of the amount of eligible sustainability-related loans. SinoPac shall assign identification markers to keep track of the Sustainable Deposit and eligible sustainability-related loans and establish a register to keep track of the use of proceeds, which shall contain the following information, including but not limited to:

- Transaction information: Sustainable Deposit 2023 issue amount, coupon, issue date and maturity date, etc.
- Proceeds allocation information: eligible green projects, Key Performance Indicators and Sustainability Performance Targets of the sustainability-linked loan (if any), etc.

The Business Unit conducts a periodic re-examination of eligible sustainability-related loans in accordance with SinoPac's credit flow guidelines. In the case where a loan no longer meets the Eligible Categories Criteria, the identification marker shall be removed accordingly, and whether the control ratio has met shall be re-examined. In the instance where eligible sustainability-related loans mature, or if limits are reduced for other reasons, the Business Unit will be notified to nominate new eligible projects to restore the total eligible sustainability-related loan amount.

## Reporting

SinoPac will consider making disclosure in relation to the allocation of the proceeds and expected impact for both green loans and sustainability-linked loans portions of the Sustainable Deposit 2023, at least once a year so long as the Sustainable Deposit 2023 remains outstanding.
